

# Together, We Can Make America Even More Beautiful

## [I-CARE]

### Institute for Citizenship Awareness *and* Responsible Engagement

seeks a world where all people faithfully believe and live positive core values as stated in the **10 Commandments** *and Golden Rule*; and live as full **Citizens**, having both **Rights and Responsibilities** in a **fair and just** society.

The Institute endorses the **work of James Meredith** to promote true Christian values, U.S. citizenship, and responsible action to transform our nation and **help America lead the world.**

*James Meredith, an American warrior for full citizenship, is the first known Black person to graduate, in 1963, from the University of Mississippi; and in 1966 he began the "Walk Against Fear" to inspire Black people in Mississippi and the U.S. to register and vote.*

## You can help make this happen!

### KEY PRINCIPLES and PROGRAMS

 <p><b>God's Simple Plan</b></p> <p><i>"...the principal problem is the breakdown of moral character. We've got to focus on what the Bible says, teaching the Ten Commandments and the Golden Rule to every child."</i></p>	<p><b>Responsible Citizenship</b></p>  <p><i>Citizenship is a personal mindset asserting one own constitutional authority and rights as equal to others, and recognizing one's responsibility to contribute to society as well as benefit from it.</i></p>
<p><b>Educational Excellence</b></p> <p><i>Each American citizen is challenged to commit right now to helping children in the public schools in their community, especially those educating disadvantaged students.</i></p> 	<p><b>Economic Independence</b></p> <p><i>There is no independence- personal, social, or political- without economic independence. Create businesses, jobs, and wealth to achieve real independence, and self-respect.</i></p>

### WHAT I HAVE LEARNED

*"Only the family of God can solve the problems of our time." James Meredith*
